Important Information About EFTs:

- Most EFT requests are completed within four business days.
- If a recurring transfer is scheduled to begin on a non-banking day, then the transfer initiation will take place on the preceding banking day.
- If you request a recurring transfer and the first transfer date is within 5 business days of today, then the first transfer will not occur.
- If this is a first time EFT link for a withdrawal, please allow 10 business days for bank verification. The withdrawal will occur two business days after verification.
- Please ensure that your account has the cash available before submitting your withdrawal request. It takes T+3 (the trading date plus 3 business days) for securities to settle into cash.
- Generally, your bank registration information must be identical to the investment account you are making an EFT withdrawal and/or deposit from. Please contact us if this is not the case.
- You may incur bank fees for bounced or insufficient EFT deposits. We do not assume responsibility for bounced EFTs. Please contact us immediately if you need to update your bank information on any recurring EFTs.
- The maximum amount that can be deposited to an account via EFT initiated with our broker is \$100,000 and the maximum amount that can be withdrawn to an account via EFT is \$200,000 over a 30 calendar-day period. Deposits and withdrawals by check, wire or EFT initiated at your financial institution may be for any amount up to the available cash in your account.
